PROFESSIONAL SUMMARY

Full Stack Developer with a technical background in Information Technology and an Associate Degree in Systems Analysis and Development in progress. Hands-on experience building web products, with emphasis on back-end development, business rules, databases, security, integrations, and accessible interfaces. Focused on organized code, validation, automated testing, and continuous improvement.

EXPERIENCE

Administrative Assistant | Crespo e Caires Law Firm

Customer service, document and case organization, schedule control, spreadsheet preparation, and support for administrative routines.

Supervised Information Technology Internship | UNASP-HT | 2025 | 200 hours

Participation in web system development and maintenance, testing, documentation, troubleshooting, and teamwork.

FEATURED PROJECTS

Prismivo | B2B SaaS platform | 2026

Full stack product for service-company operations, featuring authentication, organizations, clients, projects, approvals, private files, support, permissions, PostgreSQL, RLS, internationalization, and automated tests.

Technologies: Next.js, TypeScript, PostgreSQL, Supabase, Drizzle ORM, Zod, Vitest, and Playwright.

PS Agenda | Client-commissioned product | 2026

Client product for appointments, responsive use, and secure data persistence. Source code and administration remain private to protect the commissioned work.

Technologies: Supabase, PostgreSQL, authentication, and responsive interface.

ImunoLink | Vaccination and health profiles | 2025

Academic project built by a two-person team. Primarily responsible for back-end development, business rules, database design, integrations, and validation, with occasional front-end contributions.

Technologies: PHP, Python, MySQL, SQL, JavaScript, HTML5, CSS3, and Bootstrap.
